The Water Division is hosting a continuation Workshop August 25 and 26, 2004; September 14, 29, and 30, 2004; and October 20 and 21, 2004, to solicit public input on the need for modification of the Rate Case Plan for Class A Water Utility General Rate Applications (Commission Decision 90-08-045).

The purpose of the workshop is two fold:

To identify the least controversial issues in the Draft Proposed Rate Case Plan for Class A Water Utility General Rate Applications prepared by the Water Division and;

To discuss the necessary components of an interim rate case plan schedule for year 2004.

For your information, the Draft Proposed Rate Case Plan for Class A Water Utility General Rate Applications can be found on the Commission website at <http://www.cpuc.ca.gov>. (Go to the “Regulated Areas,” select “Water” and scroll down to “Helpful Links”.)

**NOTICE OF DRAFT RESOLUTIONS
(Pursuant to PU Code § 311(g))**

This alternate to draft resolution T16818 differs from the proposed resolution in one significant way: It affirms and maintains the Telecommunications Division's policy as adopted in previous resolutions to use the "non-recurring burden test" to permit the discounting or waiver of non-recurring charges when the service provided covers costs. As a consequence, this resolution does not trigger immediate \$56 million in price increases for SBC's telecommunications services which were approved previously through use of the "burden test" is available at the Commission's web site:

5/6/04 R01-10-024 Order Instituting Rulemaking to Establish Policies and Cost Recovery Mechanisms for Generation Procurement and Renewable Resource Development.

Summary: On May 3, 2004, Lad Lorenz, Vice President of Regulatory Affairs for San Diego Gas & Electric Company (SDG&E), met with Cmmrs. Brown and Wood in an all-party meeting in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, Steven Weissman, advisor to Cmmr. Wood, Gillian Wright, Director of Regulatory Affairs, and Billy Blattner, CPUC Relations

Manager, for SDG&E, and other attendees, listed on the attachment to the notice. Lorenz discussed the grid reliability needs of the SDG&E system absent the Valley Rainbow transmission project, and the recognition of the need for new generation by key state leaders. Lorenz described the benefits of the Palomar and Otay Mesa projects in providing needed reliability and displacing existing costly reliability must-run contracts, and the need and justification for the proposed financial provisions related to these projects adopted in Cmmr. Peevey's alternate decision. Lorenz explained that SDG&E will need more resources starting in 2010 and 2011, which will provide opportunities for projects not selected in this RFP. Lorenz urged quick Commission action to provide the grid reliability resources.

R01-10-024

Order Instituting Rulemaking to Establish Policies and Cost Recovery Mechanisms for Generation Procurement and Renewable Resource Development.

Summary: On May 6, 2004, Matthew Freedman, attorney of The Utility Reform Network (TURN), met with Steven Weissman, advisor to Cmmr. Wood, in San Francisco. Freedman expressed concerns about the fairness of the grid-reliability solicitation conducted by San Diego Gas & Electric Company (SDG&E) and the reasonableness of the selection of the Otay Mesa project for a 10-year Power Purchase Agreement. Freedman explained that, because Otay Mesa is not needed for grid reliability purposes, ratepayers would be better served if the Commission ordered SDG&E to conduct a solicitation for long-term resources. Freedman also explained why customers of all three utilities would benefit from requiring, as a condition precedent to the approval of the Palomar transaction, Sempra Energy Resources to renegotiate its long-term supply contract with the California Department of Water Resources. Finally, Freedman expressed strong opposition to the ratemaking treatment requested by SDG&E for both the Palomar and Otay Mesa transactions.

Summary: On May 5, 2004, Patrick Golden, Attorney, Pacific Gas and Electric Company (PG&E), sent an email (attached to the notice) to ALJ Halligan. In the email, Golden stated that during the May 4, 2004 oral argument, he noted that PG&E now reports compliance with General Order 156 goals both with and without regard to so-called 'excludable' categories. The email clarified that the Commission had not directed PG&E to report achievements both ways.

A00-11-056

Pacific Gas and Electric Company, for emergency application to adopt a rate stabilization plan.

A00-10-028

The Utility Reform Network, for modification of Resolution E-3527.

Summary: On May 5, 2004, Karen Tomcala, Vice President, Regulatory Relations, Pacific Gas & Electric Company (PG&E), met with Pres. Peevey in San Francisco. Also present were Julie Fitch, advisor to Pres. Peevey, and Roy Kuga, Vice President, Gas and Electric Procurement, Policy and Planning, Mark Huffman, Attorney, Brian Cherry, Director, and Erik Jacobson, Chief, Regulatory Relations, for PG&E. Written materials (attached to the notice) were used. Tomcala stated that PG&E supports ALJ Allen's proposed decision denying Southern California Edison Company's (SCE) Petition for Modification of D04-01-028 regarding allocation of the Department of Water Resources' (DWR) bond charge revenue requirements. Huffman explained that there is a disconnect between those paying for the bond charges and those who received power paid for by the bond charges. Kuga described the importance of regulatory stability. Cherry explained the negative impact on PG&E customers from SCE's petition for modification and how it would provide SCE with an unreasonably low allocation of DWR bond costs.

I93-04-002

Commission Order Instituting Investigation on the Commission's own motion into open access and network architecture development of dominant carrier networks.

Summary: LATE FILED. On May 5, 2004, Michelle Robinson, Vice President of Regulatory Affairs - California, Verizon California Inc. (Verizon), met with Cmmr. Brown in San Francisco. Robinson discussed Verizon's view that the Commission's initial decision to stay its Line Sharing order was appropriate given the ambiguity surrounding the Federal Communications Commission's Triennial Review order and SBC California's appeal of the Commission's own Line Sharing order. Robinson stated that nothing has changed since the Commission released D04-03-044 and there is no need to rush to vacate that decision as ALJ Reed's draft decision suggests. Robinson also stated that despite claims that Covad will go out of business if the Commission does not vacate D04-03-044, Covad has represented before the financial community that it has obtained new revenue opportunities that are independent of the availability of line sharing.
